## TROOPY ROOF CONVERSION

The Land Cruiser Troopy conversion aka Hercules, has to be the ultimate 2-sleeper overland solution. Not only does it offer a sleeper compartment which is easy to erect and access, it also offers unparalleled internal living space.

After climbing out the vehicle to flip the roof up - a process which takes just seconds - you can access the sleeper compartment from inside the vehicle. Which is great news if you're overnighing in lion country! A flip-up panel in the sleeper compartment allows you to stand up in the vehicle - so no more getting dressed and undressed while bent over double. What's more, the roof can be closed with your bedding in place.

This conversion offers a marginal increase in roof height, this means less stress about parking and manoeuvring your vehicle. The Hercules conversion is available in kit form so we can ship it to all four corners of the earth; installation takes two days at a competent fitment centre.

## TECHNICAL FEATURES

### FEATURES

- AERODYNAMIC DESIGN** Minimises wind resistance & fuel consumption
- EXTERNAL DIMENSIONS** Length 2 800 mm  
Width 1 420 mm  
Height 225 mm
- ADDED HEIGHT** 120 – 140 mm
- WEIGHT** 116 kg
- CONSTRUCTION** Aluminium
- COLOURS** Black, White or beige
- FABRIC** 400 gram UV-resistant rib-lock waterproof canvas with sealed seams
- ROOF INSULATION** Polyethylene closed-cell foam & black insulating quilt
- MATTRESS DIMENSIONS** Two Piece  
Length 2 400 mm  
Width 1 250 mm  
Thickness 70 mm
- LIGHTING** Two stalk lights for reading  
Four LED diffused lights
- CARGO** Integrated roof cargo tracks allow for small roof-rack or load bars.  
The Alu-Cab Shadow Awning & sides can also be fitted to the side of the unit.
